The new ITTF rules regarding the use of glues, boosters, maximum thickness of racket coverings, the racket coverings that can be used etc will be enforced. Rackets will be inspected and tested and will be confiscated for the evening if found to be outside the regulations. Players who then decide not to continue or cannot continue, with competition, will be treated as if they have given a walkover.

Please also note that no gluing of any kind is allowed on Gym premises at any time.

Players entering this tournament and then giving a walkover will have points deducted from their ranking total, furthermore they will be expected to pay the unused entrance fee before they are allowed to enter any future Mtta event.
